SUMMARY

- ✚ In 2015, New Brunswick exported¹ close to \$2.0 billion worth of agrifood² and seafood³ products to 90 countries. The province exported \$524 million worth of agrifood products and \$1.4 billion worth of seafood products.
- ✚ The value of New Brunswick agrifood and seafood exports increased by about \$440 million (almost 30 per cent) in 2015 compared to 2014. Agrifood exports rose by more than \$120 million (31 per cent) while seafood exports increased by nearly \$320 million (29 per cent).
- ✚ Over the past decade (2005-2015), the value of agrifood and seafood exports have grown by 63 per cent. During the same period, agrifood exports have expanded by close to 50 per cent while seafood exports have risen by close to 70 per cent.
- ✚ The top three agrifood exports in 2015 were: potato and potato products; beer; and live trees, plants and flowers. Top three seafood exports were: lobster; salmon; and crab.
- ✚ The United States continued to be the largest export market for New Brunswick’s agrifood and seafood products. Other key markets are Asia⁴ and the European Union⁵.

NEW BRUNSWICK AGRIFOOD EXPORT HIGHLIGHTS – 2015

- In 2015, New Brunswick exported \$524 million worth of agrifood products to 70 countries. This is an increase of \$123 million (31 per cent) over 2014.
- The top export commodities were potato and potato products valued at \$295 million, beer valued at \$39 million, and live trees, plants and flowers valued at \$29 million.
- Potato and potato products exports increased by \$74 million (33 per cent) in 2015 over 2014.
- The United States continued to be New Brunswick's largest agrifood export market with 83 per cent share in 2015, worth \$433 million.
- Other key markets were Asia and the European Union (EU 28), with agrifood exports worth over \$30 million and \$9 million, respectively.
- Commodities with the greatest growth from 2014 to 2015 included:
 - Cranberries up 100 per cent to \$2.4 million
 - Wild blueberries⁶ up 58 per cent to \$10 million
 - Maple products up 48 per cent to \$18 million
 - Animal feed up 40 per cent to \$25 million
- Markets showing significant growth from 2014 to 2015 included:
 - Czech Republic up 860 per cent to \$4.8 million
 - Egypt up 700 per cent to \$1.6 million
 - Singapore up 550 per cent to \$1.3 million
 - Guatemala up 350 per cent to \$1.8 million

NEW BRUNSWICK SEAFOOD EXPORT HIGHLIGHTS – 2015

- In 2015, New Brunswick exported \$1.4 billion worth of seafood products to 50 countries. This is an increase of \$316 million (29 per cent) over 2014.
- The top export commodities were lobster valued at \$800 million, salmon valued at \$259 million, and crab valued at \$163 million.
- Lobster exports increased by \$166 million (26 per cent) in 2015 over 2014. Salmon exports increased by \$110 million (74 per cent) while crab exports rose by \$23 million (16 per cent).
- The United States continued to be New Brunswick's largest seafood export market with 86 per cent share in 2015, worth over \$1.2 billion.
- Other key markets were Asia and the European Union (EU 28), with seafood exports worth over \$100 million and \$50 million, respectively.
- Commodities with the greatest growth from 2014 to 2015 included:
 - Eel up 204 per cent to \$17 million
 - Salmon up 74 per cent to \$259 million
 - Clams up 69 per cent to \$5.9 million
 - Sea urchin up 46 per cent to \$5.7 million
- Markets showing significant growth from 2014 to 2015 included:
 - South Korea up 1025 per cent to \$9 million
 - Taiwan up 267 per cent to \$2.2 million
 - Hong Kong up 156 per cent to \$21 million
 - Belgium up 103 per cent to \$7.1 million

NOTES AND DEFINITIONS

1. Export data refers to “New Brunswick Domestic Exports”, not “New Brunswick Origin Exports”. Domestic exports consist of the exports of all goods grown, produced, extracted, or manufactured in New Brunswick, leaving the province (through customs) for a foreign destination. Exports of imported merchandise that have been substantially enhanced in value are also included.
2. “Agrifood” includes agricultural products produced by farmers, growers, and ranchers in New Brunswick, as well as food and beverage products manufactured by the province’s food and beverage processors (regardless of where ingredients were sourced from). Agrifood does not include any fish, shellfish or marine plant products.
3. “Seafood” includes fish, shellfish, and marine plants and their products harvested or cultured in marine and freshwater as well as seafood products manufactured by New Brunswick’s seafood processors.
4. Asian countries include China, Egypt, Hong Kong, India, Indonesia, Japan, Kuwait, Malaysia, Philippines, Qatar, Saudi Arabia, South Korea, Taiwan, Thailand, and United Arab Emirates.
5. European Union (EU 28) includes Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Ireland, Romania, Slovakia, Slovenia, Spain, Sweden, and United Kingdom.
6. New Brunswick wild blueberry exports are underestimated and should therefore be interpreted with caution. This is because a significant proportion of blueberries produced in New Brunswick are shipped and processed in Nova Scotia. This makes Nova Scotia the province of origin for these exports. It is hence more plausible to analyze wild blueberry exports from an Atlantic Canada perspective. Atlantic Canada comprises New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland and Labrador. In 2015, Atlantic Canada exported wild blueberries worth \$153 million, with about half of the production coming from New Brunswick. The top three export destinations were United States, Germany, and Japan with market shares of 58 per cent, 15 per cent, and seven per cent, respectively.
